

My Special Spot

Can you guess my special spot? It has lots of pretty beaches where you can jump in the waves and walk to the lighthouse. If you are lucky you will see a big fish.

The fish at my special spot are usually small, but you will be lucky if you see a big fish because it's rare. They're usually in lakes.

Also you can go hiking at the state park and hunt for rocks. Some of the rocks are colorful. Some are black and white. Some people paint pretty pictures like rainbows on the rocks, then they hide them in the forest and we go find them.

Next what you can do at my special spot is go to the House of Flavors and get an ice cream cone that is as big as your head. You can play with friends too. Now do you think you know where my special spot is?

At this spot, you can play basketball too. Friends and neighbors sit around a campfire at night roasting marshmallows and making s'mores. Picnics are fun too!

Did you guess yet?

Just before we go to bed in my camper, we watch the sunset. My special spot is Vacation Station RV Campground in Ludington, Michigan!

Now we get comfy in our bunk beds in our camper and we still smell the smoke from the campfire. I see stars. It's time for bed! Good night campers!
