

Spring Has Sprung!!!

Flowers sprout all around me
Pollinating them is a bee.

Sun shining on the ground
Twisting, turning, all around.

Drifting low is a butterfly
Flying high is a bird in the sky.

Watching the flowers blooming
Is very time consuming.

Spring is nice and fun
Singing and dancing in the sun.

The sun is shining nice and bright
Wonders everywhere a beautiful sight!

Spring has sprung from the ground
Birds chirping and other wonderful sound!
